Any type of live music. Interactive activities: play the ukulele at a pub "Ukebox Pub Night" Open mic night.

I think a small live music venue like The Gem / Chaplins in Spring City would be a welcome addition to both Collegetown residents and Ursinus students.

Small venues

none

Not really anything

small theater (performance and/or film). Open/Communal space for food trucks/entertainment.

I don't know

Murals, sculptures, floral arrangements.

Maybe a small movie theatre if that's possible

Any venues that allow for live music.

a small movie theater (like the Colonial) that could also host live concerts, comedy shows, magic shows would be great

no opinion

Book store. Other local retail would be nice

Clubs

Performance space? Concerts. Movies in the park. Picnic area?

Music venue

No chains (Gap, etc - no). Otherwise any additions would be an improvement.

Live music

A picture framing business would be great

Community theater other than what is performed at the college

I'm indifferent.

Wine and tapas bar

small theatre

I'm not into art so would not want more. Plus Ursinus has a lot of strange art already so why add more. And we have the park to have the concerts at.

Small coffee house/music space

Ursinus College provides many options, so I'm neutral about this.

Live music. Art venue.

Record stores, book stores, restaurants/cafes that offer live music

Bars and restaurants with live music

this is less of a priority for me.

Coffee shop for evening events, ability for outdoor music, pizza shops with seating out front.

A full bar closer than trappe tavern

I am not sure that is necessary. Perhaps an art studio if anything

Something like a themed coffee house that may have rooms with merchandise or gaming for students to enjoy or for community members to rent for small parties or gatherings. Or a Dave and Busters on smaller scale for students and community.

Small theaters, art workshop spaces.

Would be nice if there was a usable seating area and outdoor music venue.

Local artists, open mic nights

Coffee shops or restaurants that have a dedicated performance space would be great. Having a flexible performance space for traveling musical acts could be fun. Maybe an art gallery?

Perhaps a venue that has games and activities for teens and young adults.

art shows; concerts

It would be fun to have a game store - a multifunctional space where people can gather as well as shop. I think that Ursinus provides a lot of cultural activities, and it would be nice if those felt more linked to the downtown rather than recreating some of those offerings downtown.

Anything and everything.

Small venues for bands

more places for live music

Cultural. Informative lectures. A senior center. Something that offers technology classes for seniors.

I really have no opinion on this.

A cafe with a music venue space would be so great for college students in the area-- like a Friday night mic night!
